

QUEEN OF HEARTS

Official Rules

Effective [7/31/26] — replaces all prior posted rules, rules will not change while game is active.

How to Play

- Tickets are \$1.00 each.
- The board holds 54 sealed, numbered cards (1–54).
- Each week, one ticket is drawn at random. The card in the matching numbered slot is revealed and removed from the board.
- If the card revealed is the Queen of Hearts, that ticket holder wins the jackpot under the schedule below, and a new game begins.
- If the Queen of Hearts is not revealed, the game continues the following week with the remaining cards.
- This game begins with a starting jackpot of \$2,000.

Ticket Purchase

- Each ticket must include the purchaser's legal name, phone number, and chosen ticket number.
- See posted signage for weekly ticket sale cutoff time and drawing time/location.

Weekly Prizes

Every week, whichever card is revealed (other than the Queen of Hearts) pays a prize according to the table below. Winner must be present at the time of the drawing to receive the “Present” amount; if not present, the ticket holder will still be paid the “Not Present” amount.

Card Drawn	In Deck	Present	Not Present
Joker	2 cards	\$150	\$75
Queen of Spades, Clubs, or Diamonds	3 cards	\$75	\$35
Ace, Jack, or King (any suit)	12 cards	\$20	\$10
Any 2 through 10	36 cards	No cash prize — 100% of that week's ticket sales is added to the jackpot	

The Queen of Hearts Jackpot

If the Queen of Hearts is revealed, the ticket holder wins a share of the jackpot based on how far into the game it happens, as shown below. The winner must be present at the time of the drawing to receive the “Present” amount; if not present, the ticket holder will still be paid the “Not Present” amount.

Queen of Hearts drawn on...	Winner Present	Winner Not Present
The 1st through 26th card revealed	60% of jackpot	30% of jackpot
The 27th card revealed or later	90% of jackpot	60% of jackpot

Any portion of the jackpot not paid out is never kept by the house or the venue — it is added directly to the starting jackpot for the next game, along with the \$2,000 starting jackpot for that next game.
